

medicine as
new medicine when
antibiotics. This was the amazing
Many other doctors were also working on
this medicine in those days. They helped
the first patient with penicillin in 1942
when the flu was getting around.

What you learned

Lesson Three

Some of these scientists did not
have easy lives. But they tried hard
when they were working on problems.
They never felt weak when they were
studying. They never gave up when
they were doing research.
